

Data Science Club

(2025-2026)

Welcome to Data Science Club

What do you need to bring?

Laptop - To work on exercises and projects

Notebook - To write down notes

Overview

Topics We'll Be Covering This Year

Python, Excel, Jupyter Notebook

Data visualization

Exploratory data analysis

Statistical models

Machine learning models

Neural Networks

Projects

Research topics

Kaggle competitions

Introduction to Basic Tools

- Excel/Google Sheet
- Python programming
- Pandas for data manipulation
- Jupyter Notebook/ Google Colab for interactive coding

Microsoft

Google Sheets

python™

Google
colab

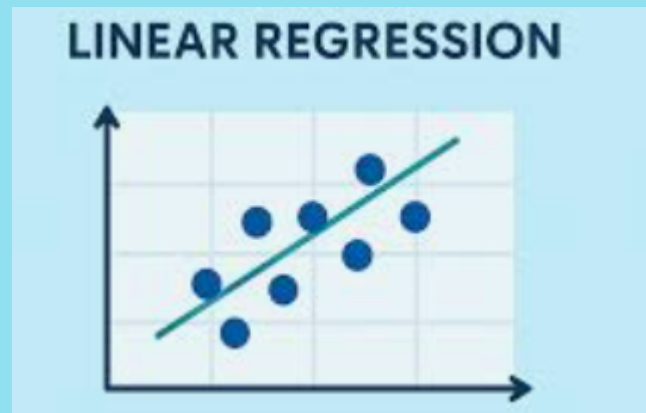

Exploratory Data Analysis (EDA)

- Understanding datasets
- Data cleaning and preprocessing
- Visualization techniques

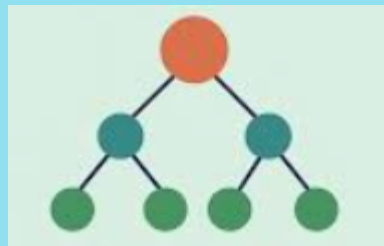

Statistical Models

- Linear regression
- Logistic regression

Machine Learning Models

- Decision Tree

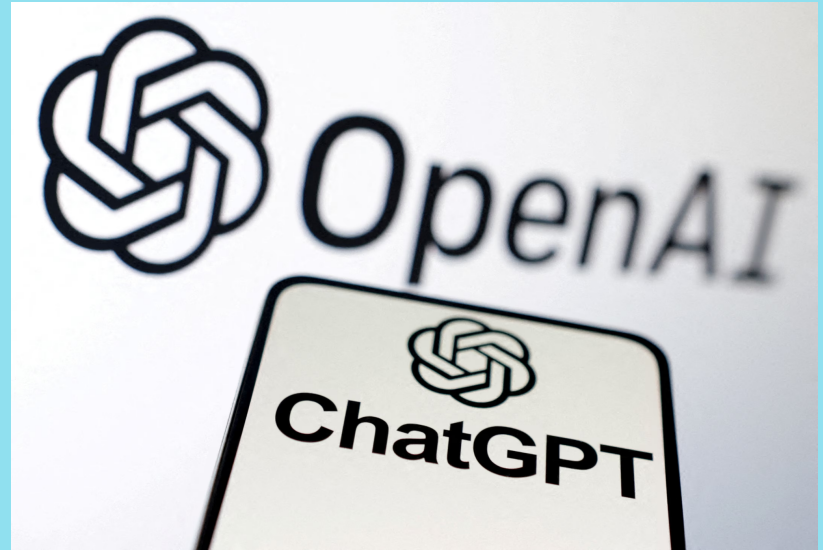

- Ensemble Model
 - Random Forest
 - Gradient Boosting

AI

- Deep Neural Network
- Large Language Model (LLM)

Projects

- Projects
 - Topic selection based on member's experience and interest
- Kaggle competitions

Practice with Google Spreadsheets
